

> Describe outfit: "Cyberpunk streetwear jacket with neon accents".

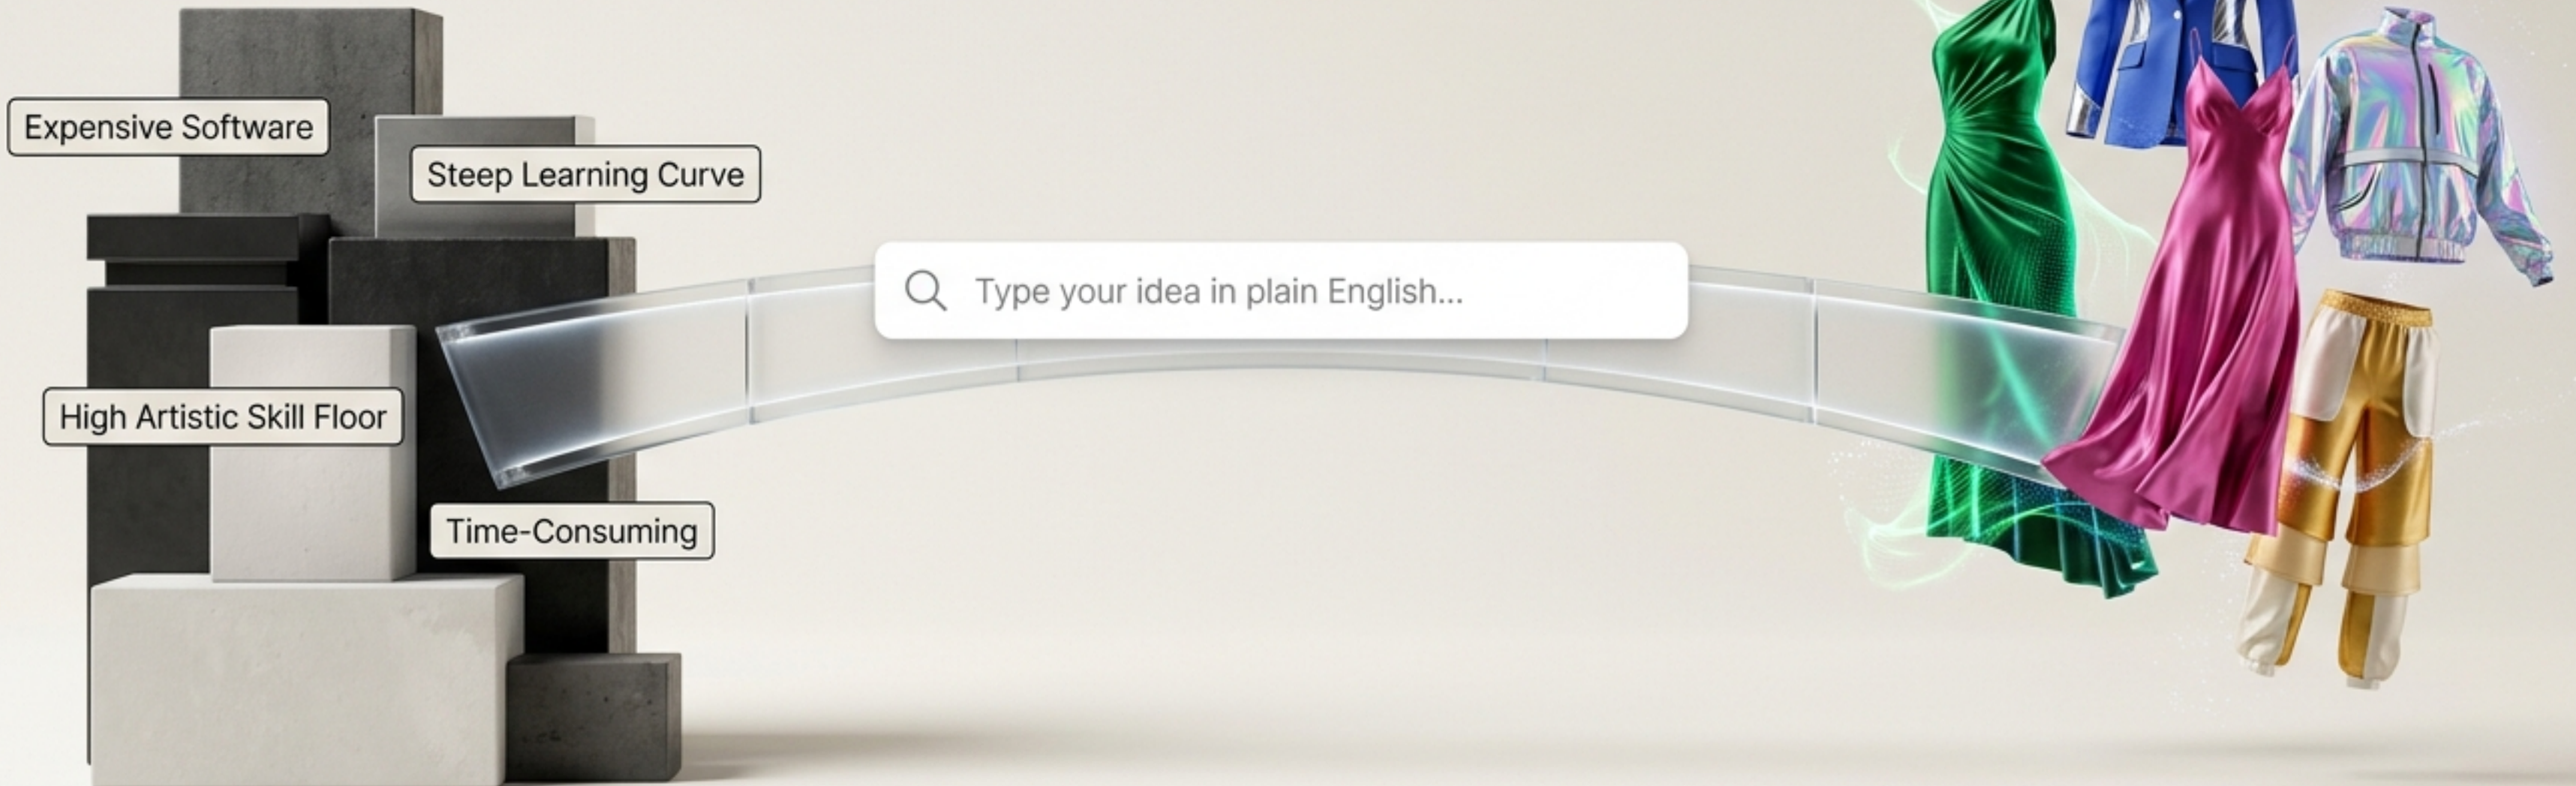

Democratizing Fashion Design Through Generative AI

Built by Piyush Ramteke · IBM Internship 2026

Bridging the Accessibility Gap in Fashion

“Making fashion design accessible, fast, and fun — no design skills required.”

A Complete Digital Atelier

AI Studio

Text-to-fashion image generation with 4 selectable AI models.

Virtual Try-On

Composite your own photo with any generated garment.

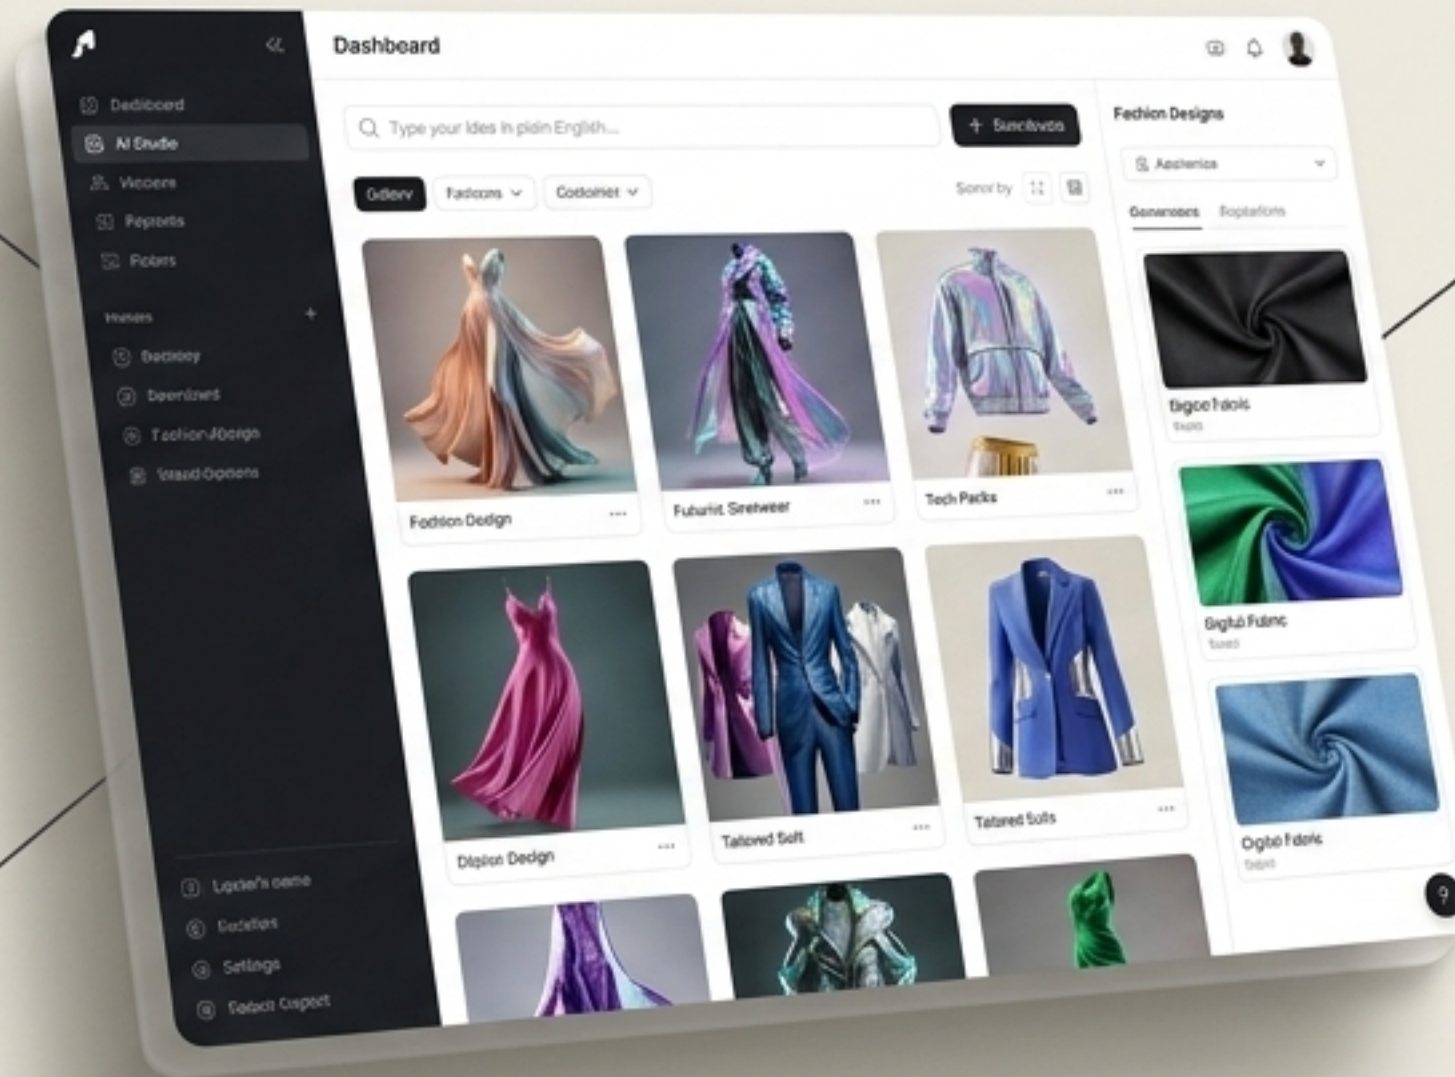

Smart Shopping

AI-matched affordable alternatives on Myntra, Ajo, and Tata CLiQ.

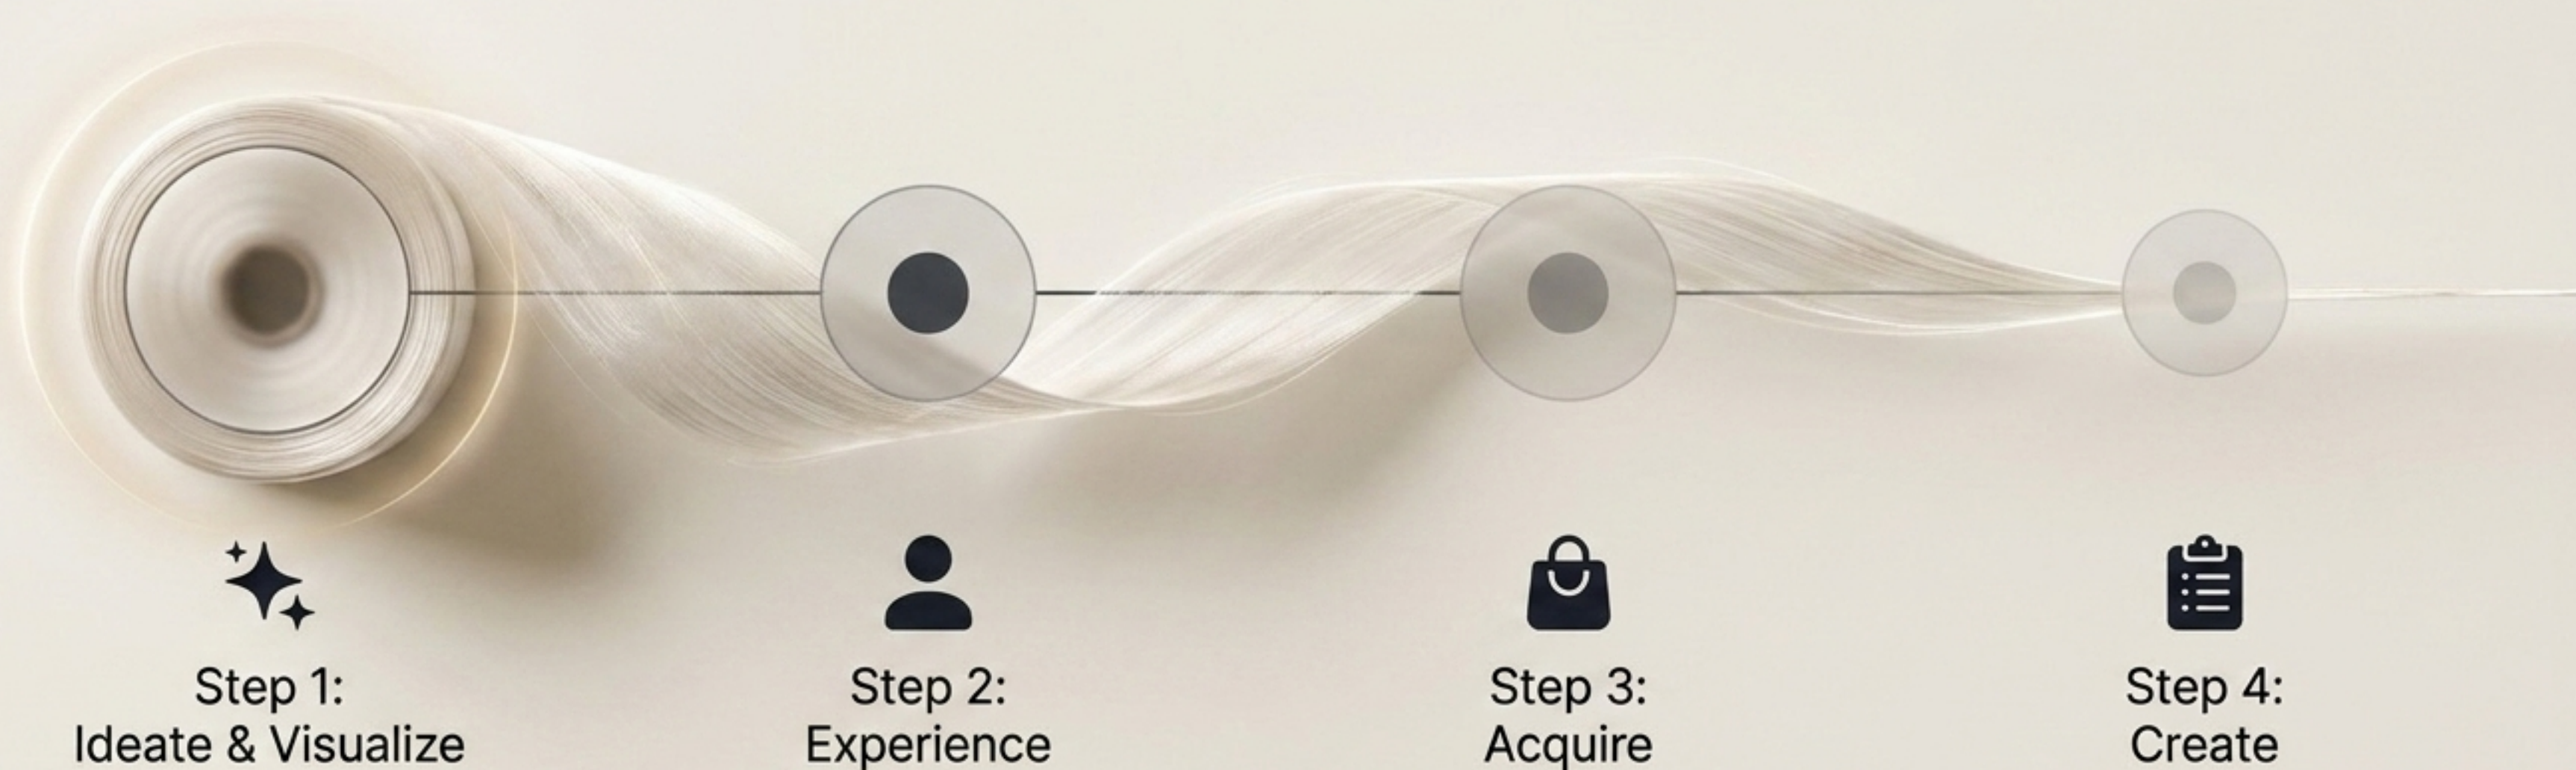

Tech Packs

Export manufacturing spec sheets with fabric, colors, and eco scores.

The Studio-to-Street Pipeline

Transforming Plain English into Haute Couture

Modern Indian half-saree in pastel pink and gold

Royal Rajasthani bandhani kurta, indigo with gold block print

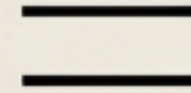

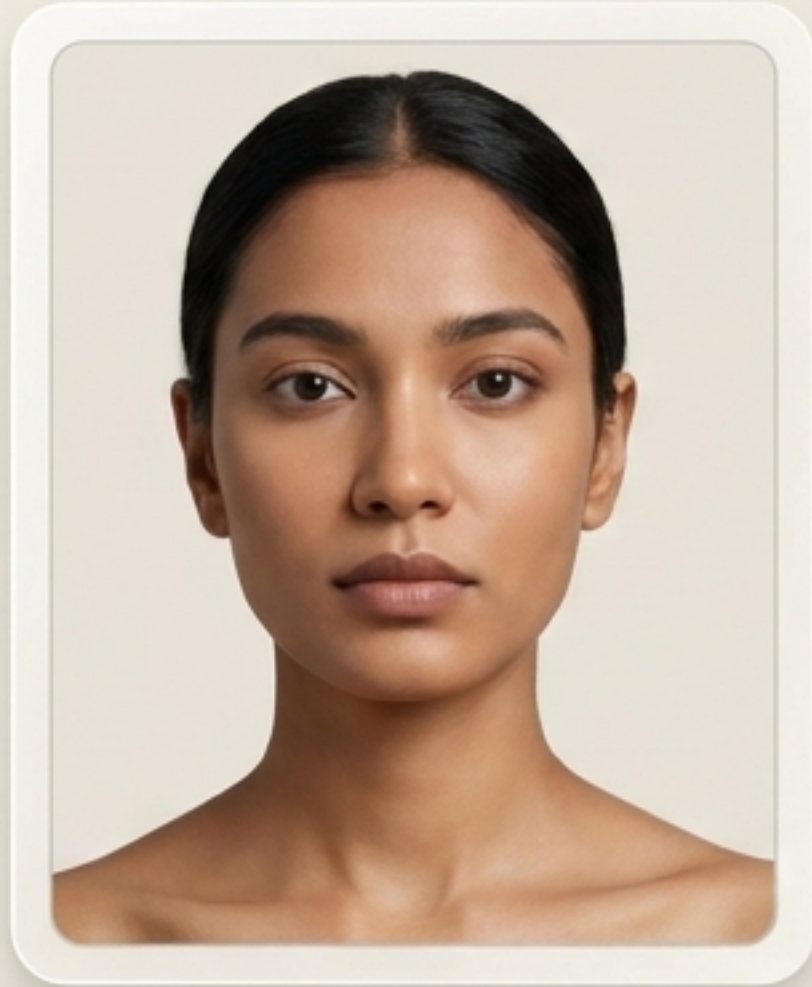

Oversized linen co-ord set in soft terracotta

Powered by Cloudflare Workers AI — up to 10,000 neurons/day on the free tier.

Experience the Design Personally

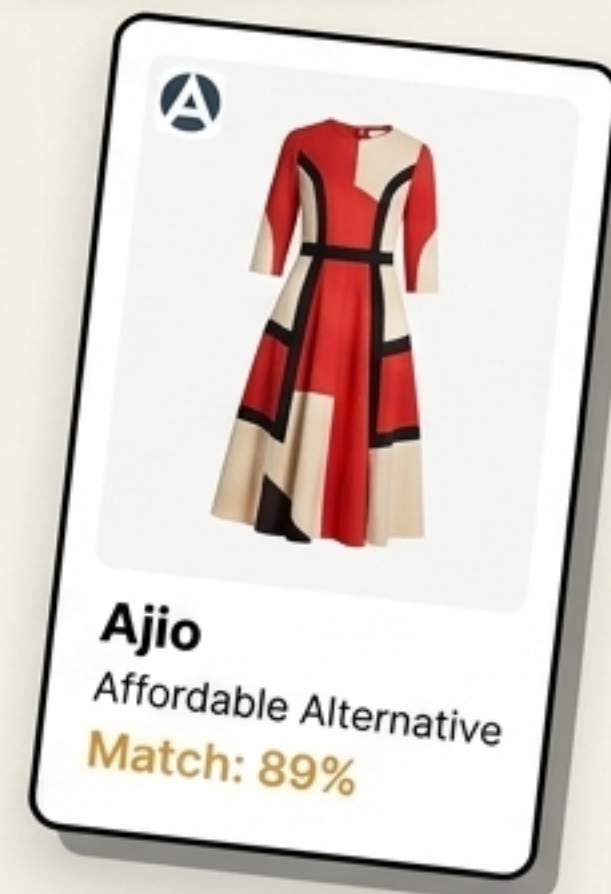

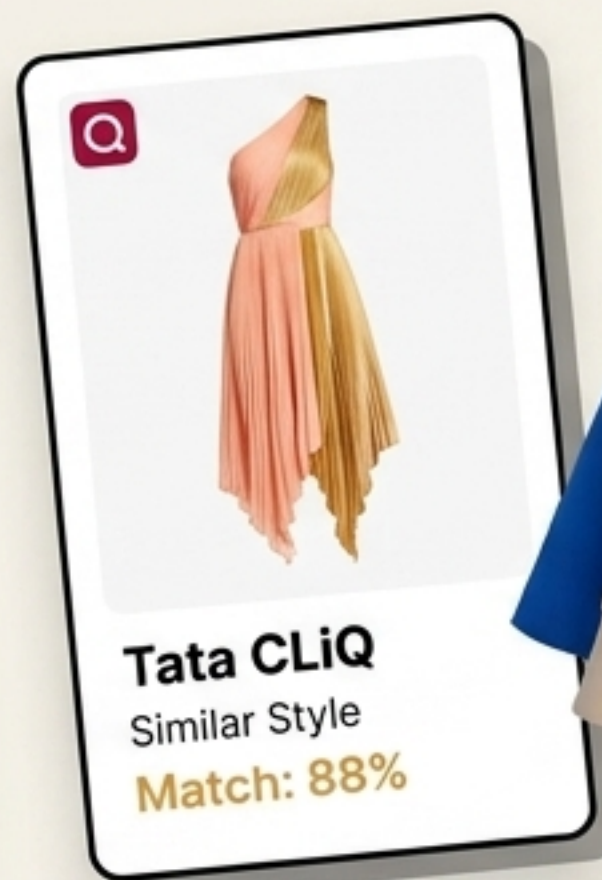

Seamlessly composite user uploads with AI-generated garments to visualize fit and style instantly.

From Generative Concept to Shoppable Reality

Collections: Save designs locally and set automated price-price-drop alerts for matched garments.

Generating Manufacturing Specifications

Fabric Type

Estimated Material:
100% Cotton / Linen blend.

Cost Estimate

Projected Manufacturing
Cost: ₹1500 - ₹2500

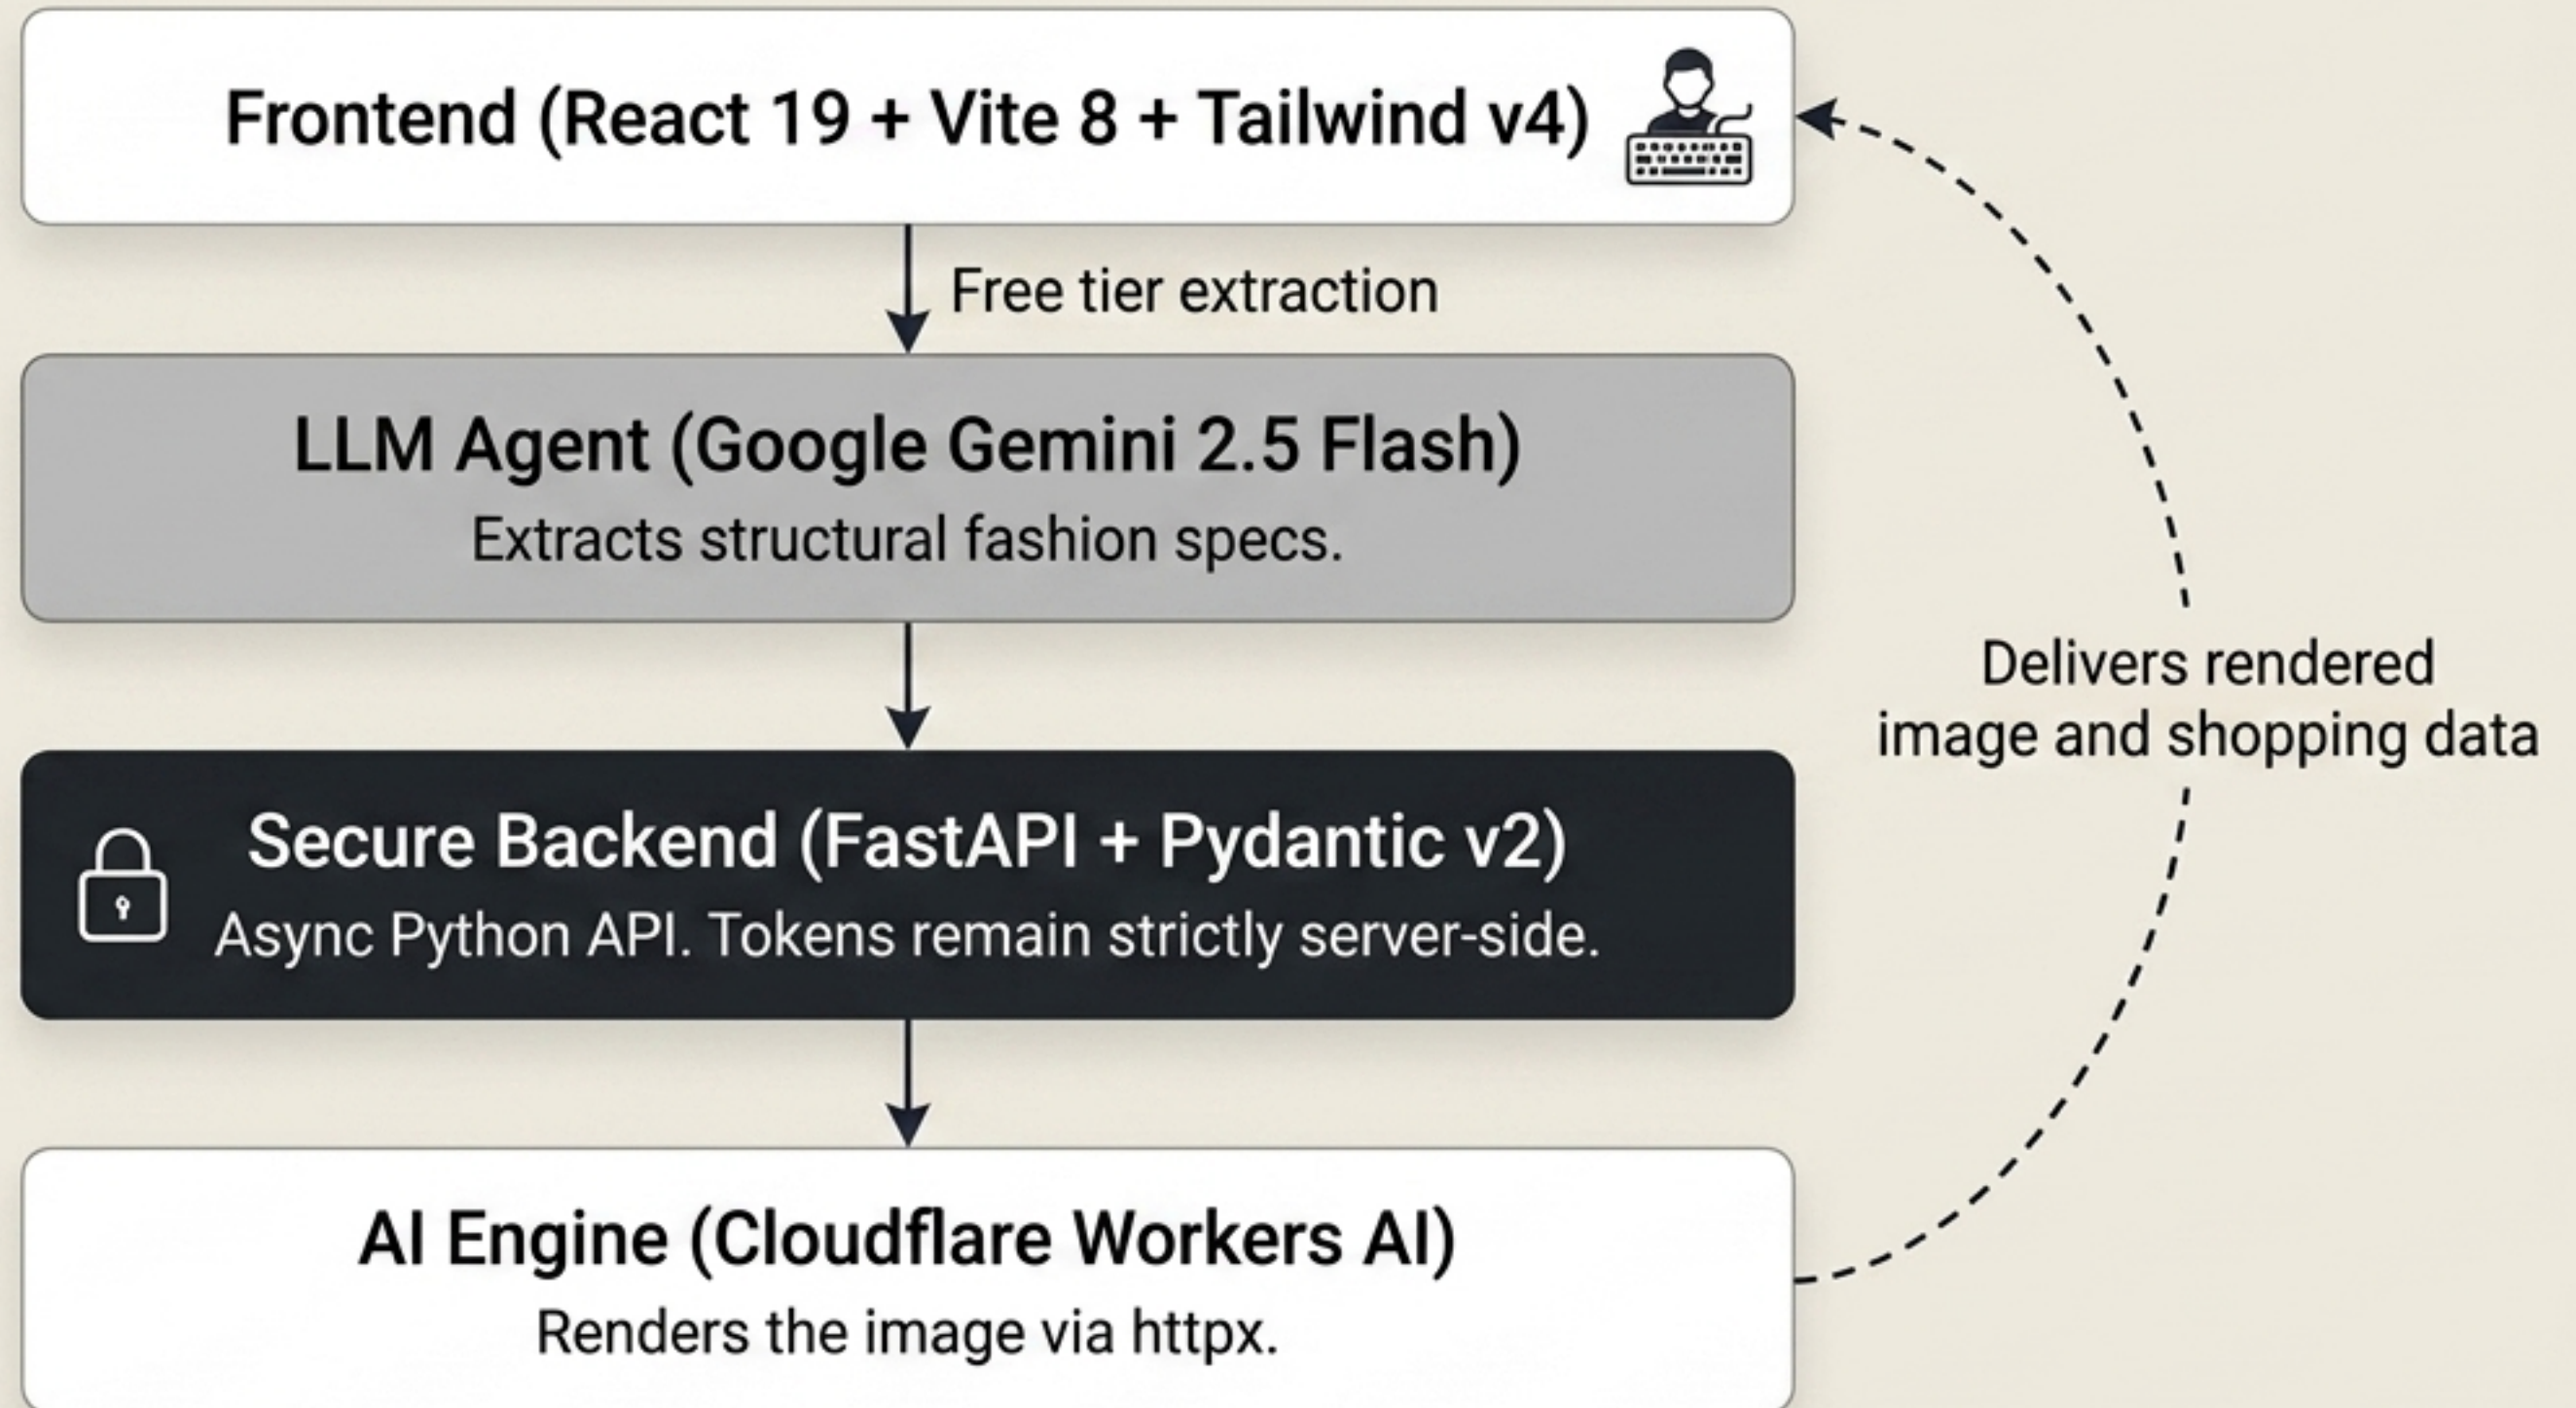

Color Palette

Sustainability

Eco Score:
85/100

The Full-Stack Data Engine

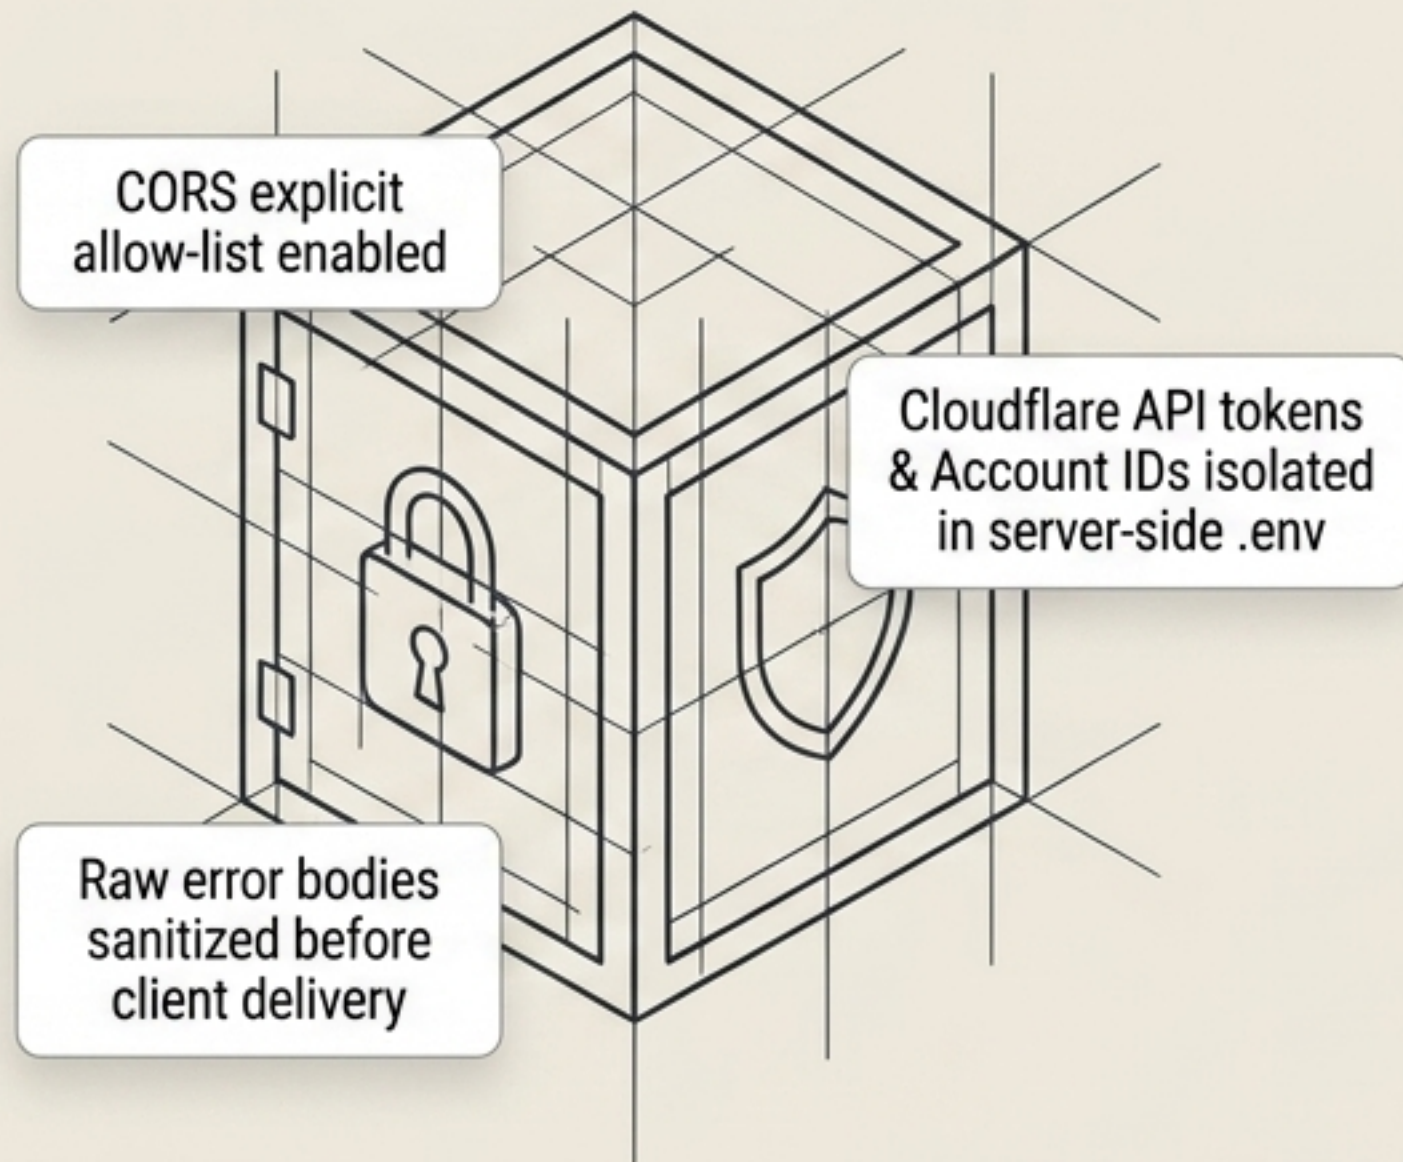

The AI Model Selector Matrix

Model	Provider	Speed vs. Quality	Ideal Use Case
flux-1-schnell Fast	Black Forest Labs	SpeedQuality	Best quality/speed for fashion renders
stable-diffusion-xl-base-1.0 Detailed	Stability AI	Detail	Higher detail
dreamshaper-8-lcm Artistic	Lykon		Painterly illustrations
stable-diffusion-xl-lightning Fastest	ByteDance		Ultra-fast 4-step generation

Secure and Validated by Design

Security Architecture

Test Coverage

```
$ pytest tests/
===== test session starts =====
platform darwin -- Python 3.10.12, pytest-7.4.0
rootdir: /digital-atelier-backend
collected 7 items

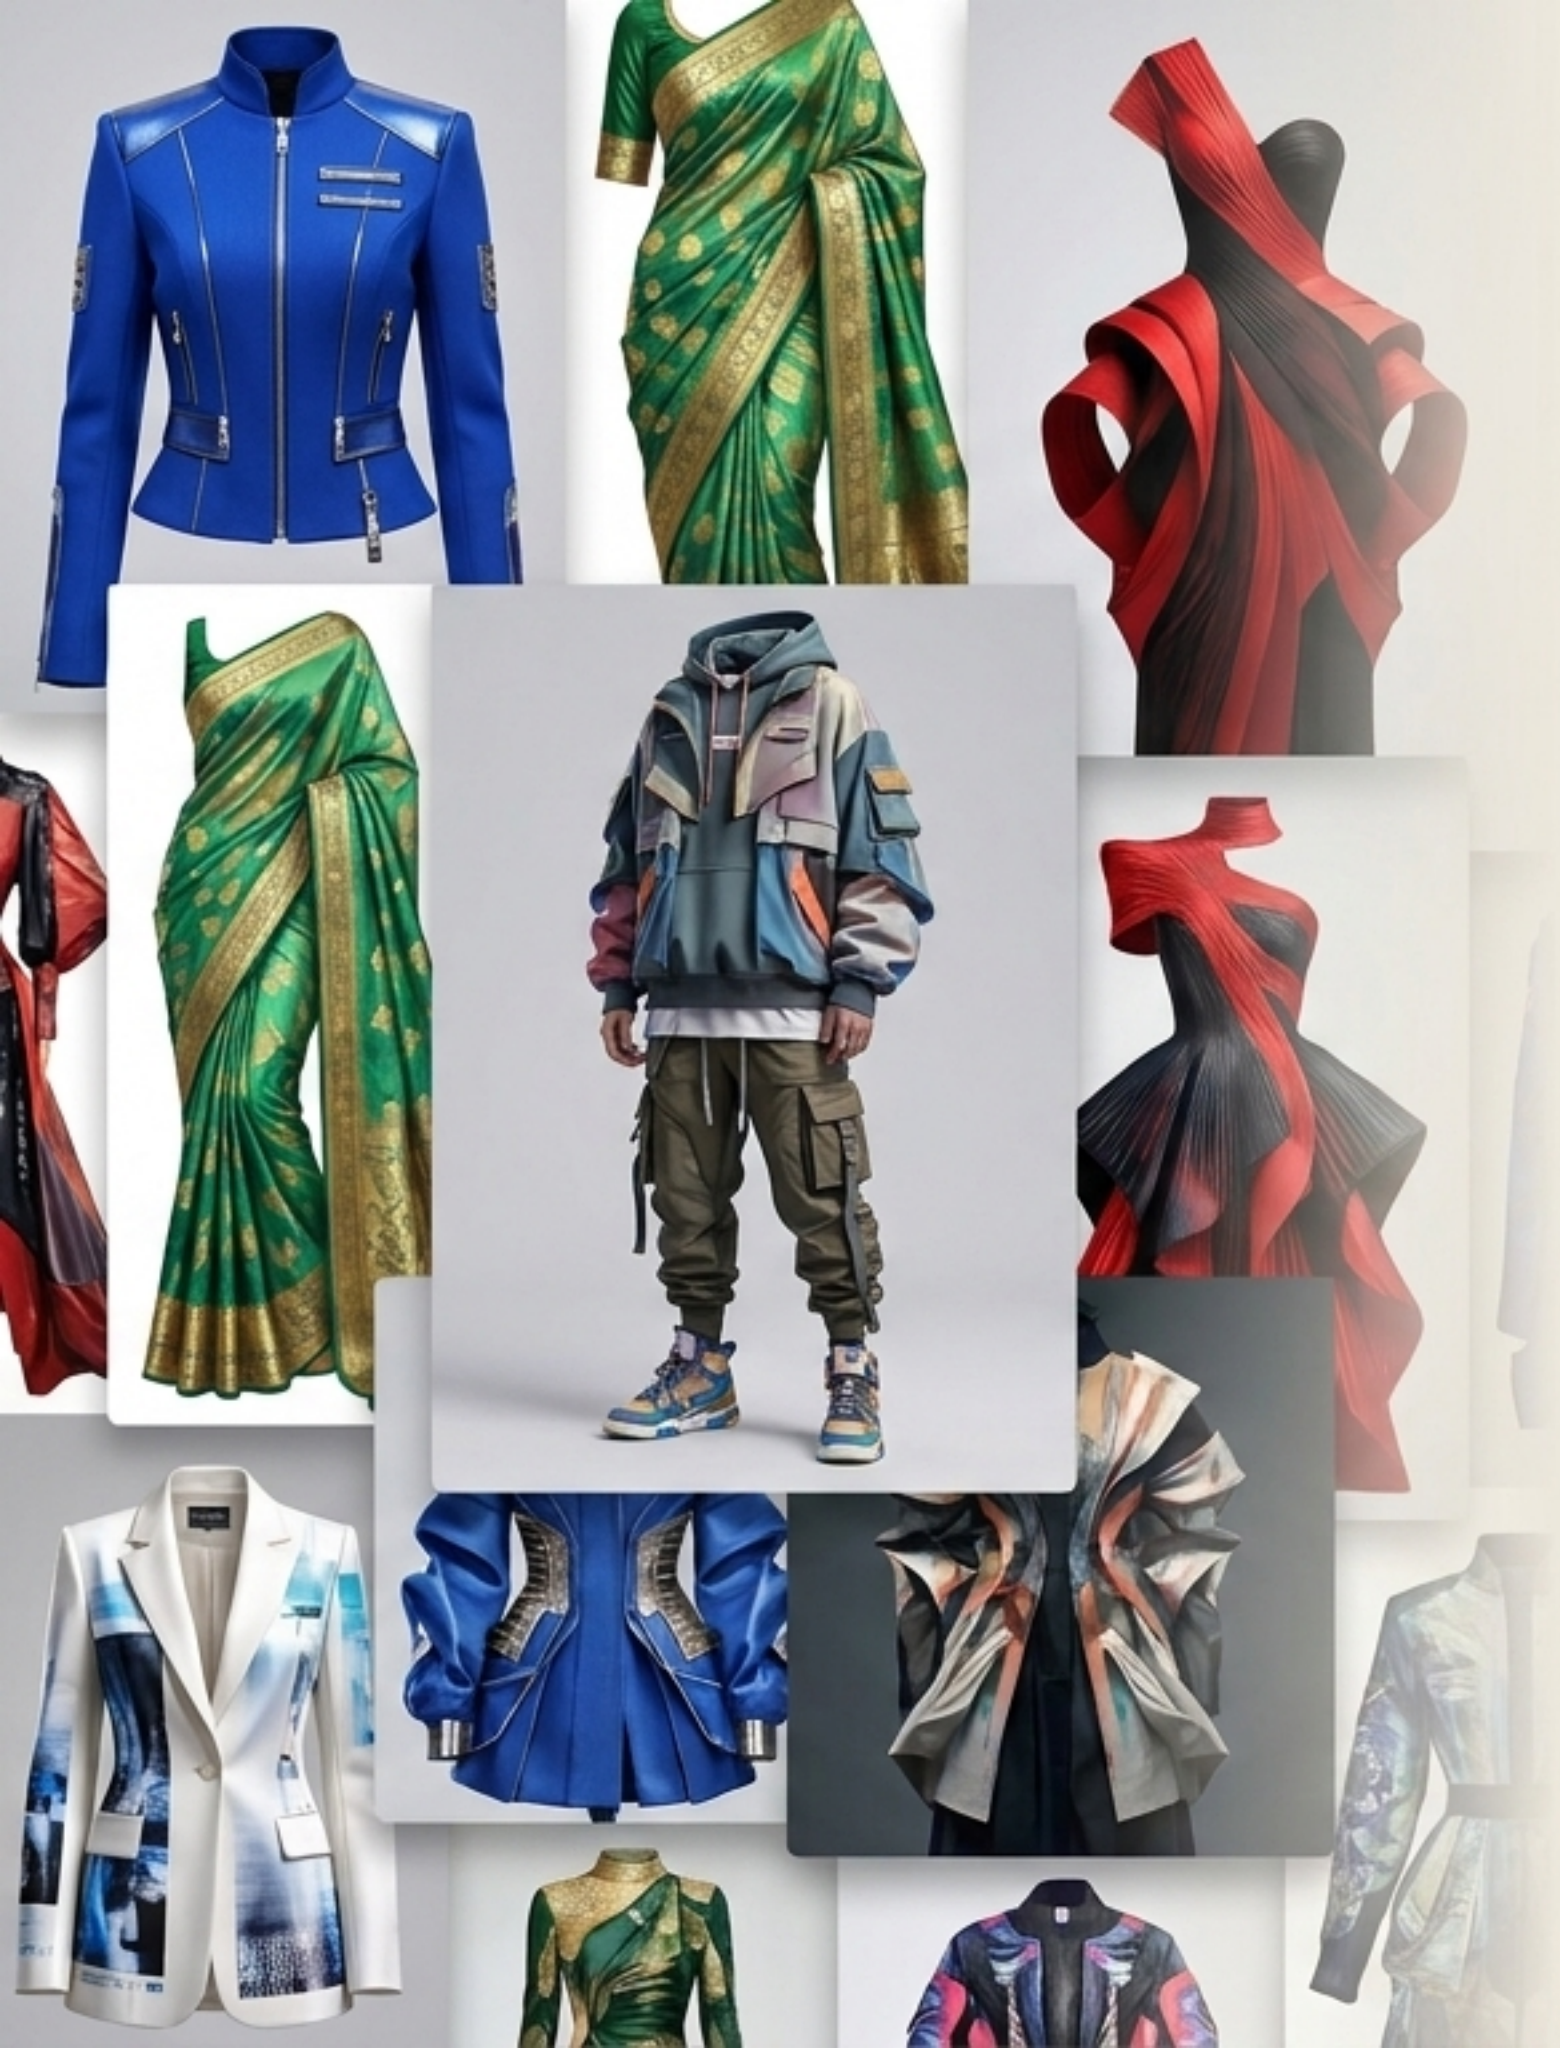

tests/test_api.py ... ✓
tests/test_models.py .. ✓
tests/test_services.py . ✓

===== 7 passed in 0.45s =====
```

7 comprehensive Pytest unit tests.

Fully mocked environment — zero real Cloudflare credits consumed during validation.

Graceful handling of missing credentials via safe 503.

Empowering the Next Generation of Creators

By eliminating the barriers of expensive software and steep learning curves, we are turning imagination directly into design.

Making fashion design accessible to everyone through the power of generative AI.
Open-source project for IBM Internship 2026.
